Allowable Subject Matter

4. Claims 1-19 are allowed.
5. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach the limitation of independent claim 1 for a circular singly linked list having a first member next pointer field, a current pointer register and a root pointer register, a method for adding a new member to the list at an arbitrary location during a scan operation, comprising: copying a root pointer included in the root pointer register to a new member next pointer field associated with the new member such that the new member next pointer field points to the first member; and overwriting the root pointer register with the new member root pointer. Independent claims 8 and 15 parallel method claim 1, and are therefore allowed for similar reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
